Relevant Experience

Web Developer · XpertCode · Claro Dominicana (Contractor)
Mar 2025 — Present

- Collaborate with the Claro E-commerce team as part of the optimization subteam, focusing on enhacing existing platform features.
- Improve UI components following the design consistency and enhancing user experience.
- Resolve identified bugs and technical issues to maintain system reliability.

Software Developer · Universidad Católica Nordestana (UCNE)
Sep 2021 — Mar 2025

- Resolve existing issues and maintaining legacy code regarding the existent softwares.
- Extract data using SQL to provide reports to different departments following specific metrics.
- Enhance UI of the institution web portal.
- Manage institutional data through Office 365 administrator.

Side Projects

MyPatient
Experience Field: Health
Stack: ASP.NET Core / MVC / Bootstrap / JQuery / Entity Framework Core / SQL Server

An ASP.NET Core MVC project for the Hospital Docente Dr. Francisco E. Moscoso Puello's surgery department, enhancing patient information management, medical order processing, and daily guard scheduling. Key features include comprehensive patient record management, efficient medical order tracking, simplified guard duty scheduling, and detailed quarterly reports on surgeries performed by each doctor.

PrestameSoft API
Experience Field: Finance
Stack: ASP.NET Core / REST API / Clean Architecture / CQRS / JWT / Entity Framework Core / SQL Server

A RESTful API designed to provide a comprehensive, scalable, and secure solution for managing fortnight loans. This API enables users to efficiently handle and track clients' loans, payments, and balances, through a simple and secure interface.

Courses and Certifications

Design Patterns in C# and .NET · **Udemy** · Jun 2025

ASP.NET Core - SOLID and Clean Architecture · **Udemy** · Apr 2024

Azure Fundamentals (AZ-900) · **Microsoft** · Feb 2024

React: De cero a experto (HOOK y MERN) · **Udemy** · Nov 2023

Inglés por Inmersión para la Competitividad · **MESCyT** · Dec 2023

JavaScript Algorithms and Data Structures · **freeCodeCamp** · Mar 2022

NDG Linux Unhatched · **Cisco Networking Academy** · Mar 2021

Skill Summary

Basic:
Node.js
MongoDB

Intermediate:
React
Azure Functions

Proficient:
C# / .NET
ASP.NET MVC
REST API
HTML / CSS
JavaScript / TypeScript
Bootstrap
Tailwind CSS
JQuery
Git
Workflow
SQL Server
MySQL
Entity Framework
SCRUM

Education
Universidad Católica Nordestana (UCNE)
Software Engineering
Bachelor's degree
2017 — 2021

Languages
English (B2)
Spanish (Native)
